

Sebastian Martinez

(561) 618-2023 | manijustworkhere@gmail.com | Fort Myers, FL

Software Developer

I'm a resourceful front-end developer with a proven ability to learn quickly and adapt in fast-paced environments. Experienced in collaborating on dynamic teams to deliver polished, user-focused web applications. Successfully contributed to collaborative projects and excels at transforming feedback into actionable improvements using HTML, CSS, JavaScript, React, etc. Passionate about solving problems and committed to continuous growth in coding and design.

Experience

Ultraverse NFT Trading Platform | Remote Intern | 10/2025 - Present

- Collaborated in a cross-functional team environment, successfully integrating workflow and communication with designers and developers.
- Engineered and implemented a responsive carousel component to effectively showcase a wider range of products, enhancing user engagement.
- Developed a dynamic, detailed page feature that highlights NFT's created by individual artists, automatically adapting to each author's portfolio.
- Improved site performance by 11% through refactoring code, eliminating redundancy, and modularizing repeated logic into reusable dynamic components.
- Contributed to cleaner, more maintainable code base by adopting best practices in React componentization and state management.

Skinstric A.I. | Orlando, FL

Junior Software Developer | 07/2025 - 10/2025

- Developed and tested software features for AI-driven applications to enhance functionality.
- Troubleshoot and debugged code with team members to improve application stability and performance.
- Assisted in debugging processes, resulting in improved application performance.
- Deployed applications to Vercel, maintaining a 99.9% uptime standard.
- Implemented new features in existing software systems using HTML, CSS, JavaScript, & PHP, increasing user engagement.

Skills

GitHub Collaboration, Version Control, User Interface Design, API Intergration, Debugging Processes, Team Collaboration, JavaScript, ReactJS, React Native, Node.js, Redux, Axios, CSS, HTML

Education

FES Institute

Certified Front-End developer | 08/2025

- Immersed in a fast-paced, hands-on coding program. consistently impressed mentors and exceeded personal expectations.
- Demonstrated the ability to quickly adapt, master new concepts, and embrace challenges from day one.
- Remain highly motivated, with a persistent eagerness to learn and develop advanced technical skills.

Languages

JavaScript, React.js, React Native, HTML, CSS, Redux, Fire Base, Axios, Node.js, Vue, webpack, TypeScript
